

We are looking for young volunteers to participate in the volunteering project within Erasmus Plus programme.

Hosting organization is Fundacja "Mam Pomysł" - Shelter for animals. It is located in Świdnica, Poland.

Tasks

All the tasks for volunteers can be divided for several parts:

- work for shelter,
- providing educational workshops for schools and kindergartens,
- participating in local events and at some point
- working on own project.

Volunteers will help at the shelter every day. Here they will participate in all the on going activities: taking care of animals, feeding them, cleaning, walking dogs, helping animals to re-socialize (as many of them have very bad experience with people), training animals (signals for calming down or obedience etc.). Learning outcomes will connect to work with animals, workshops with animal psychologist, work in team.

For educational workshops we provide volunteers with materials and of course there will be the space for volunteer to be creating and realize his/her own ideas. Learning outcomes: work with kids and youth, knowledge how to make workshops, organizing skills will be improved. Participating in local events and campaigns will bring very different kinds of tasks.

For example: collecting food and items for animals, help in renovation for poor and lonely people, building and renovating places for domestic animals, creating and spreading advertisements for adopting animals from shelter, promotion of Mam pomysł Foundation and Erasmus+ program (including EVS).

As the volunteers will spend long time in our organization, after a while, when they know the way we work and needs and possibilities in a local community, we would like to give them space for own projects. We don't want to give them any plan or limits, we will just try to support them in developing their ideas. Main learning outcome will be being independent and initiative.

We are looking for volunteers from EU countries, aged 18-30 y.o., who never took part in EVS projects.

To participate in the recruitment, please send us you CV and motivation letter (or any kind of form, creativity is very welcome;) to e-mail: evs@modefoundation.com
